## FROSCH CHEMIE

Pintor Vila Cinca, 18 A - Pol. Ind. Can Humet de Dalt  
08213 POLINYÀ • BARCELONA • SPAIN  
Tel. +34 937 131 663  
Fax +34 937 131 553  
e-mail: info@froschemie.com  
Web: www.froschemie.com

## WHO WE ARE

Frosch Chemie can be found in numerous fields of the chemical industry, chiefly in those whose main characteristic is the protection of materials and the environment.

- Agrochemicals** : copper-based fungicides for agricultural use.
- Wood** : Fungicide and insecticide protection of wood from its sawing to its finishing.
- Textile** : Tensioactive agents, stabilisers and dyes for the textile industry.
- Plastic** : Additives, stabilisers, fungicides etc. for the plastic product manufacturing industry.
- Fire-retardant** : Fire-retardant products for all types of materials.
- Coating** : Water-based varnishes and woodstain for use on industrial lines and for distribution.
- Pigments/Dyes** : Water-based dyes and pigments for industrial use.
- The Environment** : Products for reducing or minimising environmental contaminating agents.
- Car industry** : Multifunctional additives to improve performance in diesel and petrol cars. Preserving agents, oil treatment, etc.
- Power stations** : Combustion improvement for power stations fuelled by coal, biomass, HFO, fuel oil.
- Furniture/interior** : Water-based polyurethane varnishes for interiors, furniture, decoration, parquet flooring.

This information has been drawn up in line with the studies carried out by our technical department as well as by external laboratories and technological institutes. And it sets out to facilitate product knowledge and handling, though it may not be used as the grounds for any claim/complaint.

Always be safe when using chemicals. Always consult the label and the product information before using it.

The technical data of the product contained in this technical data sheet may change without any prior notice. Frosch Chemie reserves the right to make modifications to the technical data and materials contained in this document without prior notice in order to keep up-to-date with technological progress and any new developments.
